NOTES AND PRECIS.

Letter No. E.D.S. 1868, dated the 19th April 1934, from the Secretary to the Govt. of Mysore, Electrical Department.

The currency of the electrical agreement for 10 years entered into with the Govt. of Mysore in 1923, for the supply of power in connection with the street lighting of the Station expired on the 31st Dec. 1932. In the renewal agreement the Municipal Commission proposed to make the following additions:-

Proviso to the existing clause 2

Provided that 20% of the new lights installed shall be slung lights, if the consumer so desires.

Clause 2-A

" The Supplier shall not use wooden posts for the additional lights to be installed from and after the date of this agreement"

The Commission took up the question direct with the Chief Electrical Engineer with the Govt. of Mysore, who did not agree to the objection to the use of wooden posts and in respect of the provision of slung lights he imposed an additional royalty of Rs . 5/-. The Commission decided to press for their demand and resolved at their meeting held on the 27th April 1933 that the Govt. of Mysore should be addressed in the matter. The question thus came up before the Resident for the first time early in May 1933. As the matter had already been a subject of correspondence between the Govt. of Mysore and the Commission and neither side gave way, the Hon'ble the Resident considered that this Residency should determine whether the Commission or the Durbar were right and he thought that the best line of

action

would be for the Secretary to discuss the points at issue with the Chief Electrical Engineer, Mysore Govt., and afterwards, if necessary, with him and the President Municipal Commission. The Secretary discussed the matter with the Chief Electrical Engineer but could not come to any settlement. A policy of via media was then adopted; the P.M.C. was asked not to press his objection to the use of wooden poles to which he agreed and the Govt. of Mysore were then prevailed upon to withdraw on their part the Chief Electrical Engineer's objection regarding the provision of slung lights.

vide para. 21 of notes in Coln (C)
Para 22 to 24 of notes — do —.

(2) At this stage attention is invited to S.N. 8 to which P.U.C. is the reply. According to the proposal in the P.U.C. the addition proposed by the Commission in respect of wooden posts goes out entirely and with regard to the provision of slung lights the demand is limited to 5% instead of 20% as originally proposed.

(3) The Govt. of Mysore seem to be correct in their assertion that slung lights are costlier than ordinary lights: they are the suppliers and there is no reason why they should not agree to the substitution of slung lights for ordinary lights; if, as pointed out by the Commission, the former is cheaper than the latter. If approved the Commission may be told that the Hon'ble the Resident agrees with the Govt. of Mysore that slung lights are costlier and that the limitation of 5% proposed by them in the demand for such lights is reasonable and that a final draft agreement in accordance with the suggestion made by the Govt. of Mysore may be drawn up and submitted to this office. This will end this prolonged correspondence amicably.

Para 3 of S.N. 1 of (C)

A draft in the above view is submitted for

consideration.

(from para 26)

21-4-34

Secretary

T.N.T.
23-6-1934

(4)

These final proposals of Govt of Mysore seem to me reasonable. To the ordinary inexpert mind it certainly seems obvious that slung lights must in the majority of cases be more expensive than lights on single poles. They could only be cheaper in cases where it happened that there were already in existence poles or supports of some kind on both sides of the street from which the lights could be slung. It seems to me that Mysore Govt have acted generously in offering to supply 5 o/o slung lights at the ordinary rate.

We may inform P.W.C. that Govt consider the offer to be not only reasonable but generous, and advise the Commission to accept it.

Draft may issue?

(We should also acknowledge the P.W.C.

and say that the proposals have been communicated to Rnc.)

15.5.34.

Issued No. 3680 dt 19.5.34

Letter No. G T 61, dated the 8th June 1934, from the President, Municipal Commission.

The President Municipal Commission was asked U.O. in January last not to press his objection to the use of wooden poles in view of the assurance given by the Chief Electrical Engineer that only straight poles will be used. The President agreed to this - vide para. 24 of Mr. Cooke's note ~~ante~~. Further we have already told the Govt. of Mysore - vide para. 6 of S.N, & that the President Municipal Commission has agreed to the suggestion ~~that~~ to press his objection to the use of wooden poles. It will be awkward now to revive the question.

In the circumstances, the file may, if approved, be sent to the President, Municipal Commission with the request that the objection to the use of wooden poles may be withdrawn and a draft of new agreement called for in S.N. 10 submitted at an early date.

15. 6. 34

(from para 32)

Secretary

T. N. T.
16-6-1934

It will certainly be very difficult for us to go back on what has already been said to the Mysore Govt on the subject of wooden poles. The concession on this point, which was agreed to by Mr. Cooke, was held out to the Mysore Govt in the hope that

it might induce them to relax their rigid attitude towards the question of slump lights. They did give way on the question of slump lights; but now can hardly now accept the concession which they have offered to us and at the same time withdraw the concession which we have promised to give to them.

With P.M.C please see with particular reference to para. 8 of 33 of proceedings and say what he now suggests.

19th June 1934

U/O No. 4429 Dated Bangalore

To The President Municipal Commission C & M Station Bangalore.

I much regret that the hookie assent to the use of straight wooden poles was not brought to notice at the time the Commission considered the agreement. I agree that it would be awkward to reopen the matter again. I shall refer the matter to the Municipal Commission at their next meeting (28th instant). A further communication will be sent after the meeting.

CORRESPONDENCE.

All Communications should be addressed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

No. 1093 Rec: one
262-1933.

FROM

Major G. Kirkbride, I.A.,

SECRETARY TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Secretary to the Government of Mysore,
Electrical and Krishnarajasagara Works.

Dated, Bangalore, the 7th Feby., *193*4

Subject.

Renewal of the Electrical Agreement with the Government of Mysore.

SIR,

S.N. 348
543/04 (K)

I am directed to refer to the correspondence ending with your letter No. E.D.S.1165, dated the 5th December 1923, forwarding a copy of the revised agreement for the street lighting system in the Civil and Military Station, Bangalore. This agreement, which was concluded for a period of 10 years, expired on the 1st January 1933. In 1932 direct correspondence started between the President, Municipal Commission, Civil & Military Station, Bangalore, and the Chief Electrical Engineer to the Government of Mysore regarding the renewal of this agreement.

Rec: II 15
S.N. 1. (C)
262-33

2. In the new agreement to be made, the Municipal Commission propose to add the following:-

Proviso to the existing clause 2

"Provided that 20% of the new lights installed shall be slung lights, if the consumer so desires"

Clause 2-A

"The supplier shall not use wooden posts for the additional lights to be installed from and after the date of this agreement".

3. The Chief Electrical Engineer does not agree to embody the above two additions in the new agreement on the following grounds:-

(1) that, at present, steel poles are very costly being nearly 2 or 3 times as costly as wooden poles that are being used and that as long as continuity of service was given it should not matter whether wooden or steel poles are used.

(2) that if slung lights are required extra rate of royalty at Rs.40/- per light per annum against Rs.35/- per annum for the ordinary 60 C.P. lights should be paid as the capital cost involved in providing slung lights is more than that required for the installation of overhead lights.

S.N. 1. ante

4. The President, Municipal Commission, pointed out to the Chief Electrical Engineer that wooden poles were unsightly, not straight as in other countries, and liable to attack from white ants; that reinforced cement concrete posts would not cost more than wooden ones; and that the installation of slung lights would cost less than the installation of new ordinary lights since a considerable length of copper wire and many poles would have to be used for the installation of the latter in the extensions and villages of the Station, whereas slung lights would always be required to be fixed where wires already exist.

5. The Chief Electrical Engineer does not agree to the two additions being embodied in the new agreement. The President, Municipal Commission, therefore, placed the matter before the Commission at their ordinary meeting held on the 27th April 1933 when it was resolved that the Mysore Government should be addressed in the matter - vide copy of resolution No. 4, dated the 27th April 1933, enclosed. He thereupon requested the Hon'ble the Resident to address the Mysore Government accordingly.

Enc X of S.N. 1

6. From the correspondence that passed between the President, Municipal Commission, and the Chief Electrical Engineer and in view also of the technical nature of the subject, it is difficult to determine whether the President, Municipal Commission, or the Chief Electrical Engineer are correct in their contentions. A <u>via media</u> was therefore suggested to the President, Municipal Commission. He was asked not to press his objection to the use of wooden poles in view of the assurance given by the

Chief

Chief Electrical Engineer that only straight poles would be used. He has agreed to this suggestion on condition that only straight poles are used.

7. I am to ask whether in view of the above the Mysore Government could kindly see their way to withdraw, on their part, the Chief Electrical Engineer's objection regarding slung lights.

I have the honour to be,

Sir,

Your most obedient servant,

Major,

SECRETARY TO THE RESIDENT.

Municipal Commission's resolution dated the 27th April 1933. (Ordinary meeting).

---

4. Letter dated the 4th January 1933 from the Chief Electircal Engineer in regard to the amendments proposed to the Electrical agreement in the Commission's resolution No.5, dated the 17th December 1932 and subsequent correspondence with him on the subject.

Recommended that the Mysore Government be addressed on the amendments proposed by us.

Resolved that the Mysore Government be addressed on the amendments proposed to the Electrical Agreement in the Commission's resolution No.5 dated the 17th December 1932.

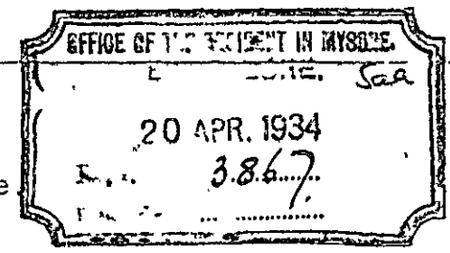
S. SRINIVASA AIYAR, Esq., B.A., B.E., C.E.,
Secretary to the Government of Mysore,
Electrical Department,
Bangalore.

To

The Secretary to the Hon'ble
the Resident in Mysore,
Bangalore.



Sir, Subject:- Renewal of Agreement in respect of street lights in the Civil and Military Station, Bangalore.

I am directed to acknowledge the receipt of your letter No.1093/262-1933 dated the 7th February 1934 and subsequent reminder No.2595 dated the 7th April 1934 in connection with the above.

In reply, I am to request you to convey to the Hon'ble the Resident the thanks of this Government for his kindly interest in the matter. The Municipality may rest assured that every effort will be made by the Electrical Department to use only straight poles, but it need not be made one of the conditions in the agreement.

As regards the demand for extra royalty in respect of slung lights, I am to state that while a span of wire, a pole and goose-neck fittings are all that are required for an ordinary light, a slung --- light requires two poles, a steel messenger wire and other fittings involving additional capital out-lay. The additional royalty of Rs.5/- per light claimed by the Electrical Department will just give a ---- reasonable return on the extra outlay. If, however, the Municipality are prepared to limit their demand for slung lights to five per cent of the lights to be newly installed after 1st July 1934, the Government of Mysore will, as a special case, be glad not to press the claim for additional royalty in respect of such lights and would accept ordinary rates for all the lights, the royalty payable for slung lights in ----

in excess of five per cent being Rs.40/- per light.

I have the honour to be,
S i r,
Your most obedient servant,

S. Srinivasa Raja

Subject:-Renewal of the Electrical Agreement
with the Government of Mysore.

S.W. 2 and 5

With reference to your letter No.3504/262-1933, dated the 13th May 1933, forwarding a copy of letter No.E.D.S. 1868 dated the 19th April 1934 from the Government of Mysore, I have the honour to inform you that the Municipal Commission, at their ordinary meeting held on the 31st May 1934, considered the question of the renewal of the Electrical Agreement. They accepted the proposal made by the Government of Mysore regarding the provision of slung lights.

2. As regards the use of wooden poles, the Commission considered that they were not only unsightly in public streets but also objectionable in narrow lanes, as they occupy a good deal of space. The Commission, therefore, desired that metal or concrete poles in lieu of wooden ones should be installed. In view of the fact that the Commission are paying to the Government of Mysore a sum varying from Rs.50,000/- to Rs.60,000/- annually, as royalty on electric lights, the Municipal Commission felt that their request should be acceded to by the Government of Mysore and included in the Agreement. I enclose a copy of the Municipal Commission's resolution No.3, dated the 31st May 1934.

AN AGREEMENT made the [first day of January] One Thousand Nine Hundred and [Thirty Three] between the Chief Electrical Engineer to the Government of Mysore (hereinafter called the Supplier) of the one part and the [Municipal Commission of the Civil and Military Station of Bangalore] (hereinafter called the Consumer) of the other part. WHEREAS the Supplier has agreed to supply power to the Consumer and the Consumer has agreed to take from the Supplier Electrical Power for the purpose of illuminating the streets within the [Municipal] limits of the [Civil and Military Station, Bangalore], for the period and upon the terms and conditions hereinafter provided, it is hereby agreed between the parties hereto as follows:-

1. This agreement shall commence from the [1st day of January 1933 on which the existing agreement dated the 16th October 1923 terminates] and shall continue for a [further] period of ten years therefrom.

2. The Supplier agrees to instal and to maintain all lines, lighting fixtures, and other plant, necessary to efficiently operate the system of street lighting, now existing in the [Civil and Military Station], as per plan annexed, showing the approximate number and distribution of lights, as they stood on the [31st December 1932] and such extensions as may be required by the Consumer during the period of this agreement at the cost of the Supplier including all renewal of lamps and other plant, the illuminating power of all lamps being in standard C.P.

3. The Consumer will pay to the Supplier by monthly payment within one month after the bill for the same is rendered for all the street lights installed, as per Schedule of rate noted below:-

1. Overhead lights of 40 to 60 C.P. at Rs35/- each (or per light) per annum.

2. Slung lights within 5% of the demand for new lights after 1-7-1934 of 40 to 60 C.P. Rs35/-

3.	Slung lights over 5% of the demand for new lights after 1-7-1934 of 40 to 60 C.P.	at Rs40/- each	(or per light) per annum.
4.	Lights of 100 C.P.	Rs70/-	"
5.	Lights of 250 C.P.	Rs140/-	"
6.	Lights of 400 C.P.	Rs245/-	"
7.	Cluster of 5 lamps.	Rs300/-	"

4. That the consumer shall take all reasonable precautions within his power to prevent injury or damage to the poles, wires, insulators, and all other plant of the Supplier situated within the [Civil and Military Station Limits].

5. That the hours during which the illumination of the street lighting system will be maintained shall be from sunset everyday to 5-30 A.M. on the day following, which interval is herein referred to as a night.

6. That no change in the position of any lamp once installed and no deviation, extensions, or alteration of any kind whatsoever shall be made or permitted by the Consumer without the sanction of the Supplier previously obtained.

7. That in the event of any change in the position of a newly added lamp appearing desirable, the Supplier shall at the request of the Consumer carry out the same free of cost subject to the conditions that the request shall be preferred within a period of six months from the date of starting service to the lamps affected and that the total number of lamps so removed from the position originally occupied shall not exceed 5% of the total number of lamps newly installed (for the next higher whole number of lamps) in the entire system and that the distance, which such lamps are to be so removed shall not exceed 100 yards in any direction from the original position. Further that any such alterations, preferred after the period of six months from the date of first starting service to those lamps shall be carried out at the mutual consent of the Supplier and the Consumer at the entire cost of the Consumer.

8. That the Consumer is prepared to limit the demand for slung lights to 5% of the lights to be newly installed [after 1-7-1934] and the Supplier will accept ordinary rates as of overhead lights for all such lights. The royalty payable for slung lights in excess of 5% [thereafter] will be Rs40/- per light.

9. That the Supplier shall take all reasonable precautions to ensure continuity of service but will not in the event of any interruption from any cause be liable for any loss arising out of such interruptions and that the Supplier will give the Consumer timely notice of the probable duration of any interruption and endeavour by every possible means to minimise the period of such interruption.

10. That in the event of the illuminating of the street lighting system being suspended by reason of any interruption to the power supply or by reason of any other cause, a rebate of payment will be allowed to the Consumer by the Supplier, calculated at 1/365th part of the annual payments, mentioned in para 3 SUPRA, for each night the street lighting system remains un-illuminated, provided that no rebate shall be claimed by the Consumer for an interruption of the service unless such interruption extends to one full continuous night in each case, fractions of a night not being counted.

11. That subject to the aforesaid terms and conditions this agreement shall remain in force and be binding upon both the parties hereto for a full term of 10 years from [1st January 1933] to [31st December 1942].

12. That if at any time within three years previous to the expiry of the said term of 10 years, the Consumer or the Supplier prefer by a written request from one party to the other, for a renewal of this Agreement, then the same shall be renewed upon such terms and conditions and with such

modifications if any as may then be mutually agreed upon by the parties hereto.

In witness whereof the Supplier, as representing the Government of Mysore, has hereto set his hand and seal the day and the year first above written and this agreement has been sealed with the common seal of the [Bangalore Cantonment Board Municipal Commission] and signed by the President and one other [Member Commissioner] and Countersigned by the [Executive Officer Secretary], as the Consumer [in accordance with Section 36 of the Bangalore Municipal Law of 1897], the day and year first above written.
